

ORANGE COUNTY NIKKEI HANDICAP BOWLING TOURNAMENT

The tournament committee of the 49th Annual Orange County Nikkei Handicap Bowling Tournament extends a thank you to all participants in this year's event.

With the installation of the new synthetic lanes and approaches, the tournament experienced occasional machine malfunctions and uneven approach conditions. We hope that these small problems did not create an unpleasant experience. At tournament time, Fountain Bowl management was still in the process of determining the most favorable amount of conditioning for the lanes, thus resulting in what appeared to be good scoring on some lanes, and difficult scoring on others.

We are not sure what management will suggest in regards to lane preparation procedures for the next tournament. (Management had stated that oiling after the Women's Team event would leave an excess of conditioner on the lanes which would create an "impossible shot").

Here is the tentative event schedule for the year 2002.

* **ANTICIPATED OILING OF LANES** (Lanes are usually oiled at the start of each day)
